

Senator Malcolm Roberts
One Nation Senator for Queensland

2 June 2020

MEDIA RELEASE

Ban ANTIFA terror

Senator Malcolm Roberts calls on the Prime Minister to demonstrate the same political leadership as President Trump and declare ANTIFA a terrorist organisation.

“We need to stop these far-left anarchists who use violence and fear to push their radical socialist agenda before they recruit and organise further in Australia,” Senator Roberts said.

“Australia is a peaceful democratic nation where people resolve our differences through mutual respect and debate, culminating at the ballot box.”

ANTIFA are already attacking police and intimidating innocent people attending public events in Australia.

Senator Roberts added, “All responsible politicians should be defenders of our cultural, social and democratic values and it is the Prime Minister’s job to act urgently and decisively to protect the social fabric of our peaceful society.”

Australia’s political leaders need to swiftly and ruthlessly safeguard Australia from this same fate.

ANTIFA protesters are self-proclaimed anti-capitalists, oppose freedom and democracy, and are destroying major cities in the USA.

Modelling themselves on previous ANTIFA movements going back as far as the 1930’s, their agenda has always been aligned with communist political parties aimed at bringing about the downfall of capitalism.

The irony of this movement is that ANTIFA (formed from the term anti-fascists) are themselves behaving as fascists to suppress opposition and call for strict obedience to their self-determined culture of control over others.
